HOW TO USE THIS MAP:

Track hurricanes along with the KVUE Storm Team. It's easy. Just make a note of the latitude and longitude given during weather forecasts on KVUE News. Then, plot the current location of the hurricane on your tracking chart. Once you chart its location, draw the hurricane symbol (●) and watch KVUE News for the next update to see where the storm has moved. It's easy to stay informed and help keep your family safe.
